A sustainable sanitation solution expert, inventor, speaker and entrepreneur. He has been involved in construction, renovation, innovation, R&D, recycling, sanitation, water and waste management, been there and done that for more than 20 years! He has spoken and presented on water, sanitation and hygiene (WASH) in more than 25 countries, and yes, he does care about issues related to water, waste, sanitation and hygiene across the world!

Company info: ECOLOO's award winning and patented biological sustainable Sanitation Solutions are based on the principle of Simplicity, Scalability, Environmental Responsibility and Economic Viability. It employs special formulated bacterial culture to treat and vanish human waste and transforms the urine into natural liquid fertilizer that is odor free, pathogen free and full of nutrients, perfect for organic farming. The technology saves money, water, and energy, and creates better, healthier, and greener environments for its citizens.

ECOLOO is environmentally friendly, odour free, water free, sewage free, energy free and hassle free as it is very easy to be installed and maintained for indoor and outdoor applications. Its by-product is also odour free, pathogen free and full of nutrients, perfect for organic farming.

ECOLOO does not require water for flushing but water can still be used for hygiene or cleaning purpose. By using ECOLOO, one can save gallons of clean water from being flushed into septic tank or sewage treatment plant and millions to billions of Dollars from being spent on sewage treatment and sewage transportation

SOPAN (Society of Parents of Children with Autistic Disorders) is a registered NGO working for autism and related developmental disabilities. It is a registered under the Public Trust Act, 1950 and the Society Registration Act, 1850. It began in 2002 as an initiative of a group of parents whose children with autism needed education and training. A group of parents came together and set up SOPAN which has now completed 20 years of service. SOPAN has set up 7 projects which work towards the empowerment of children and adults with autism and developmental disabilities. SOPAN also runs a College of Special education which runs professional teacher training courses and is affiliated to the University of Mumbai and recognized by the Rehabilitation Council of India. As a NGO, working for autism and developmental disabilities, SOPAN

- provides services that include diagnosis, early intervention, school education, therapies, and vocational training
- provides guidance, counselling, and training of parents and families
- promotes and supports the enhancement of inclusive education
- conducts human resource development programs in the area of autism and developmental disabilities
- conducts community awareness and advocacy programs
- liaises with local, state, and central governments for the formation/implementation of disability-specific policies and schemes.

Earth Analytics India was founded in 2018, and is a boutique geospatial analysis firm registered in Mumbai, India, working more closely on the issues that drive purpose-driven organizations in the environmental space, active in South Asia and Europe.

 [Verify.earth](https://www.verify.earth)  [www.earthanalytics.in/](https://www.earthanalytics.in/)

### Products/Services

**A b o u t U s** 

Verify.earth is a geospatial analytics company with offices in Mumbai and Zurich.

The Verify platform and its associated tools provide asset level-specific insights on pre-defined nature parameters.

This presentation summarised the offer of cotton monitoring platform verify.cotton

We help actors along the cotton value chain to identify key environmental indicators relating to water consumption, soil quality and crop health purely based on geospatial data points.

**Lithium Mining**

The production of Organic Cotton in India is 1.23 million tonnes (mt), which is 3.8% of the total organic cotton production in the world.

+37% YoY growth in organic cotton fiber.

1.4% Share of global cotton is certified organic.

India has over 5,000 GOTS-certified facilities however, the industry is very often subjected to fake certification instances.

\*According to Textile Exchange Organic Cotton Market Report 2022. \*\*GOTS: Global Organic Textile Standard

Our offer  
Measuring sustainable cotton remotely

- Identify fields that are earmarked as actual or "to be transformed into" organic cotton fields
- Verify the crop health of cotton fields
- Drought and water use efficiency monitoring in accordance with the BCI water stewardship criteria

Enabled by remote sensing and machine learning as well as contextual ground intelligence, the verify.cotton dashboards help cotton procurers and certifiers to undertake their environmental due diligence and assessment in their production.

GIFT YOUR SPECIAL ONE WITH SPECIAL LUXURY PERFUMES FROM SIGMA STYLES!

MAYUR PRAKASH JADHAV  
FOUNDER, SIGMA STYLES

### A BEAUTIFUL PERFUME.....

LET'S UNDERSTAND THE PERFUME IN SHORT.....

THE WORD 'PERFUME' DERIVED FROM THE LATIN 'PER FUMUM', LITERALLY TRANSLATES INTO 'THROUGH SMOKE'. PERFUME IS THE MIXTURE OF FRAGRANT ESSENTIAL OILS/AROMATIC COMPOUNDS, FIXATIVES & SOLVENTS, WHICH PROVIDES PLEASANT SMELL, LONG-LASTING FEELING OF FRESHNESS AND BOOSTS CONFIDENCE, REDUCES STRESS. IN ANCIENT TIMES, DABS OF FRAGRANCES WERE USED TO GET PLEASANT SMELL. PERFUME HAS THREE SETS OF NOTES- TOP, MIDDLE (HEART) & BASE NOTE TO MAKE THE HARMONIOUS SCENT ACCORD. TOP NOTES ARE THE SCENT NOTES WE IMMEDIATELY SMELL AFTER APPLYING A PERFUME, MIDDLE NOTES RE THE SCENTS THAT EMERGE ONCE THE TOP NOTE OF THE PERFUME EVAPORATES, AND BASE NOTES ARE THE SCENTS THAT LASTS THE LONGEST AND IS THE ONE YOU REMEMBER MOST.

**YES! WE CAN TRUST** is a registered non government entity operating on the national level under the Indian trust act of 1862 government of NCT Delhi since 2013 (IN- DL99 693529699521L). Our founding members (Meenu Mani and Samuel Mani) were inspired by their own disabilities to form this operational organization. We have observed that despite a number of welfare programs being carried out for differently abled persons, the desired impact on the lives of these persons, is not being felt especially themselves, at a ground level.  
 Therefore, being an operational NGO, we like to implement those empowering projects which can really impact their daily lives.  
 Their constant feedback is our driving force behind the selection of these projects. However, implementing such projects required great deal of planning and communication at all levels

  
 All bakery and confectionery items are personalized according to the customer's choice. Hygiene and cleanliness are maintained with utmost standard. Yes bakers and confectionery is an initiative taken by "Yes! We Can" to empower women with Disability through this Chocolate making group employment start up. So Come and join hands with Us. By purchasing their hand made products so that they can earn and support their family.  
 NOTE:- All products of yes bakers are eggless

Online business of suits ,bedsheets, jewellery, ladies bags, western wear,household items, Modicare products and many more.

Carbon emissions are one of the biggest contributors to global warming and climate change. But who is responsible for that? It is our actions which are creating a major impact on planet earth.

72% of the carbon emissions are linked to consumer behavior and India ranks 3rd in it.

Today we have tools to manage our health, fitness, finances and many other aspects of living a simple and sustainable life, but none to manage our behavioral influence on the environment.

- Recycling Consultancy
- Waste Audit and Waste R&D
- Industry S.O
- Trading of Recycled Plastic Granules
- Trading of Virgin Plastic granules

**Waste generation across globe and its estimated growth by 2030-2050**

**What is it with India?**

Approximately 10 million tons of garbage is generated in just the metropolitan cities of India- Delhi, Chennai, Hyderabad, Mumbai, Kolkata and Bangalore.

94% of Municipal solid waste in India is dumped in and around the cities and only a meager 6% is treated. 3R Zero Waste is a solution to the tremendously growing rate of waste in landfills; Solutions that comes to your homes and commercial establishments.

We promote the concept of Sustainable Development - building a circular economy that gives a product its end to end solution.

# TEKNOV8R

TEKNOV8R has begun working with Engineering Colleges, their IICs & Students, to Co-create Student-Driven Technology Innovations & Startups for the Benefit of Society. We have evolved an Integrated 7- Level Strategy that builds capabilities of Students step-by-step, and Empowers them to take up Social Innovations & Social Startups.

We also have a Technology Platform, through which we are beginning to onboard various Stakeholders, Mentors & Students, and to create Interactive groups to take up focused Initiatives.
